

130,000 Devices and Counting: KoreLock and RemoteLock Scale Up IoT Smart Lock Enterprise Platform

The remarkable growth of the KoreLock and RemoteLock enterprise-level IoT Smart Lock platform is reshaping the property access management and control industry.

DENVER, CO, UNITED STATES, March 17, 2025 /EINPresswire.com/ -- Global market leaders [KoreLock](#) and [RemoteLock](#) are pleased to announce that their innovative enterprise-level IoT [Smart Lock](#) platform now operates 75,000 Smart Lock devices worldwide.

This collaboration represents a pivotal advancement in the IoT access control industry, transforming property access management and control.

“

KoreLock and RemoteLock offer a level of access control platform features and services unparalleled in the industry”

Rob Goff, Co-founder and VP of Product at KoreLock

KoreLock's turnkey patented Smart Lock technology platform enables access control providers and lock manufacturers to build and sell connected devices. Paired with RemoteLock's access-centered property operations software, managers of multifamily, vacation rental, commercial, and related industries can remotely control access to any space, anytime. By integrating KoreLock's advanced smart lock technology with RemoteLock's powerful access platform, the two companies are uniquely positioned to deliver a groundbreaking IoT enterprise

solution, seamlessly bridging OEM Smart Lock hardware with access control software to meet a critical market need for top global brands.

According to Rob Goff, Co-founder and VP of Product at KoreLock, "KoreLock and RemoteLock offer a level of access control platform features and services unparalleled in the industry." The IoT Smart Lock platform incorporates KoreLock's patented Wi-Fi / BLE Smart Lock technology

KoreLock and RemoteLock have partnered to deliver a powerful, enterprise-level IoT Smart Lock solution.

with advanced features such as remote access management, local control over BLE, and offline mobile credentials, currently embedded in and enabling over 20 unique lock models across multiple lock manufacturers. This ever-growing number of innovative locks powered by KoreLock can all be managed through the RemoteLock platform.

Barclay Friesen, SVP of Partner Sales for RemoteLock, expressed enthusiasm about the partnership: "When working with KoreLock, you're also gaining a high-tech software ally in RemoteLock, capable of expanding your business into multiple properties and markets with tens of thousands of doors for your Smart Locks." RemoteLock's extensive network connects KoreLock's smart lock manufacturers with over 60 property management and booking software integrations, including prominent names such as Airbnb, Guesty, Streamline, Yardi, and AppFolio.

The market impact of this collaboration is significant, as evidenced by the successful launch of the new TrueSecure Smart Lock line by SimpleAccess. "Our turnkey access control enterprise solution allowed SimpleAccess to develop a whole new line of locks under the TrueSecure brand," said Mr. Goff. KoreLock and RemoteLock partner PDQ Manufacturing will showcase the SimpleAccess TrueSecure line at the upcoming ISC West show in Las Vegas on April 2-4, 2025.

The KoreLock technology platform with RemoteLock operations software represents a significant milestone in the property management industry, offering a comprehensive enterprise-level access control solution and transforming how access control is managed globally.
